BORE CLEANER FOR HEAVY CARBON

CARBON

MOLY

ACETONE
AND AMMONIA
FREE

PRODUCT DESCRIPTION

CARBONATTACK is formulated to chemically act on heavy carbon fouling. The product eliminates carbon residue from different origins, whether baked on particles or simply dust-like.

The balance of chemicals selected for the product not only delivers extensive results but also allows for a safe and harmless product application with a pleasant citrus odor to cater to the removal of stubborn hard-to-clean carbon fouling.

CARBONATTACK is a versatile product with many applications for almost all rifles, shotguns, and sidearms.

SOLVENT

150 ml | VLD - CAL150

RECOMMENDED DIRECTIONS

BORE CLEANING

- STEP 1** SECURE AND UNLOAD THE FIREARM
- STEP 2** Wet 3 patches with CARBONATTACK and push through the barrel. Run patches slowly to give solvent time to react with the bore surface.
- STEP 3** Run 10 passes through using a Nylon brush soaked in CARBONATTACK. Wet and run through another 4 patches with CARBONATTACK and leave for 5 minutes. Extend the time for extreme fouling.
- STEP 4** Make use of patches containing CARBONATTACK and run them through until patches contain no residue at the barrel tip. Finish with 2 dry patches.
- STEP 5** Before storing the firearm dampen a patch with VELDT Gun Oil as this will prevent rust and dust from settling on your firearm.
- STEP 6** Always run a clean, dry patch through the rearm before use to prevent any obstructions.

PLEASE NOTE This product is not intended for use on wood, varnishes, coatings, plastic and polymers.

RECOMMENDED

REMOVAL OF HEAVY
AND BAKED ON CARBON FOULING,
GREASE, MOLY AND OILS.

COMPATIBILITY

AR, BOLT AND CARRIER
SHOTGUNS
PISTOLS
REVOLVER CYLINDERS
BLACK POWDER WEAPONS
OLDER NEGLECTED WEAPONS
