

**HP88 LUBE**  
SYNTHETIC LUBRICANT

**PRODUCT DESCRIPTION**

HP88 LUBE is a synthetic lubricant developed for a multitude of uses. Aerosol application to ensure that the lubricant provides an even film of protection, without any mess.

The lube is also non-combustible and is suited for high-pressure applications. Tested by some of the best marksmen in South Africa, this lubricant proved itself time and again as one of the best competitive oils in its class.

Stock and barrel, mechanisms, and even your knives. No matter what the application, this product will not disappoint.

**AEROSOL**  
**150 ml | VLD - HPL150**

REPELS WATER

REDUCE OXIDATION AND RUST

REDUCE FRICTION

Keep out of reach of children.

Store in a cool, dry place away from direct sunlight.

CONTENTS UNDER PRESSURE

HIGHLY FLAMMABLE

MAKE USE OF GLOVES

HARMFUL IF SWALLOWED

USE EYE PROTECTION

**RECOMMENDED DIRECTIONS**

- Secure and unload the firearm.
- Clean areas to be treated and leave until it's completely dry.
- Apply HP88 Lube to all moving parts.
- Cycle the parts several times to distribute the oil evenly and ensure that the oil is in proper contact with all parts.
- When applying HP88 Lube to the rifle or sidearm bore, wet a patch or a mop and pass through the bore until a light oil coating is attained.
- It is always advised to run a dry patch through the bore before using the firearm. This will remove any residue and safeguard against obstructions.

**SPECIAL ABILITY**

High-Pressure application.

Non-combustible formulation.

Synthetic Based oil for multiple rifle and knife uses.

Best used to safeguard triggers from dust and debris. The thin protective layer will dry in a few minutes. Each application done after drying will increase the protection.

Superior cleaning ability with precision chemical technology for the precision enthusiast.
