

CASE GLIDE

RE-SIZING LUBRICANT SPRAY

PRODUCT DESCRIPTION

CASE GLIDE is a natural lubricant spray-on application designed for optimal coverage of brass casings during the re-sizing process.

The dual-purpose natural lubricant will not only service your re-sizing needs but will also attend to re-sizing tools and equipment to make the glide effortlessly.

120 ml | VLD - CSA120

RECOMMENDED APPLICATION

- CASE GLIDE is a dry film application that will not impact primers or powders.
- This product is ideal for reloading large volumes of ammunition at a time.
- The formulation requires the user to use this sparingly as the coating technology used will optimize the coating ability on the brass surfaces.
- This product is designed to optimize your re-sizing experience and aim to improve your process.
- Do not use this spray on scopes, firearm mechanisms, and optical equipment.
- This product is exclusively designed for the VELDT reloading/brass re-sizing range and needs to be used for its intended purpose only.
- This product is not intended for lubrication use on wood, varnishes, coatings, plastic, and polymers.
- Safe to use with stainless steel, plastic casing trays, and or containers.

SPECIAL ABILITY

VELDT has taken great care to source only the best ingredients to go into this formulation to ensure a non-sticky, non-caking, and all-natural product free from petroleum-based products.

Case Glide can be used to lubricate all types and sizes of brass.

Case Glide is ideal, easy and quick to use to lubricate large quantities of cases at a time—either using a tray, a plastic bag, or even a container. A no-fuss lubrication option for the reloading expert.

TRY OUT OUR RANGE OF COMPATIBLE PRODUCTS

- This is all you will need as an average marksman just needing to stock your reloading bench without specialized whoo ha.

DID YOU KNOW?

- SHOTBLAST can be used to clean and degrease your resizing dies.
- RIFLE BUTTER can grease your dies and presses.
- CO-G Oil can be used to fireform cases.
